Charlestown, Jefferson county, was established in October, 1786. It was laid off by Col. Charles Washington, brother of Gen. George Washington, on 80 acres of his own land. It was named after the Christian name of its original proprietor. It is situated on the W. P. R. R., and has about 1300 inhabitants, it is noted for the high tone of its society and for its unbounded hospitality. Its birth and bringing up, proves it a firstclass town; its enterprise and devotion now will make it second to no town in the Valley of Virginia. We hope other Valley towns will not be hurt at this notice of Charlestown. She is supposed to belong to West Virginia at present. Sir Walter Scott, said, (and if he didn't, he should have done so;) that "the knight who protects the outer gate of the Castle, deserves the most honor,"-and, then, our friend, Major W. J. Hawks, chief commissary for Stonewall Jackson, lives Of our sister town, the present county seat

he has the following :-

Shepherdstown, Jefferson county, on the Potomac, was established in 1762. It was once called Mecklenburg, and is 12 miles above Harper's Ferry. It was laid off by Capt. Thomas Shepherd, and was first settled by German mechanics. It is remarkable as being the place where the first steam boat was constructed. In 1788, James Ramsey built a boat there, which was propelled by steam against a brisk current. Some of the remnants of the machinery are still in the town Shepherdstown, is now the county seat of Jefferson, so-called. Like Charlestown, she has a "knight who defends the outer gate," and deserves all the prosperity she has seen since the war. Her population is about 900,

We leave Zittle of the Register to deal with Garber for publishing Shepherdstown as a village of only 900 inhabitants. The thing is ridiculous.

Money to Loan .- The Jefferson County Building Association, which has already loaned out over \$2,500 since the 1st day of January, advertises, through its Board of Directors, that there will be an additional sum to loan on Saturday evening next. When it is remembered that this money is to be expended in the erection of new buildings, or the repair of old ones, in our midst, the claims of the association to public encouragement are presented in a stronger form than words can express. We are gratified to state that the association is still increasing its number of shares and that in every respect its condition is most prosperous.

SHANNONDALE FACTORY.-This factory situated on the Shenandoah river, has passed under the sole control of our liberal friend, Mr. James M. Johnston, by whom it will hereafter be conducted. To be up with the times, and to enable him to compete with the best establishments of the country, in the manufacture of superior goods, Mr. J., has added new machinery of the latest pattern and most approved style, and hereafter the Woolen Goods of the Shannondale Factory will compare with any manufactured on this side the Atlantic. We are gratified at the assurance that the first piece of goods manufactured on this improved machinery is to be made into a suit to adorn the person of the editor of the Spirit of Jefferson.

BALTIMORE COMMERCIAL COLLEGE.-We have purposely abstained from calling attention to the advertisement of this institution until we could satisfy ourselves of its merits. Several young men from this community have taken scholarships for the business course, and from them we learn that the system of instruction is thorough and complete. To those of our young men who contemplate preparing themselves for the business pursuits of life, we recommend this institution. See advertisement on 4th page.

GRADUATED .- Among the names of the graduates at the University of Maryland, on the 5th inst., we are glad to notice those of Messrs. Eugene F. Cordell, N. Anderson Ware, Pembroke Thomson, of this county, and Cyrus McCormick, of Clarke county .-These young gentlemen are represented to have graduated with great credit to themselves, and were highly complimented by Prof. N. R. Smith for proficiency in their several studies in the different branches of

GRAY JACKETS .- This is the title of a book that has recently come from the press of the National Publishing Company. We have not seen it, but understand that it is quite an interesting volume. Mr. John W. Dalgarn, who has undertaken the task of supplying our people with Southern Literature, is the agent for the work in this county, and will wait upon the people to secure their subscriptions to it. In his rounds he will act as : n agent for the Spirit of Jefferson, and his receipts for subscriptions will be regarded by us. Give him a welcome wherever he goes, as he is a worthy man.

THE LOST. FOUND.—From the Valley Virginian, published at Staunton, we copy the following, in the hope that it may meet the eye of some one interested:-A little boy aged about 10 years, was picked up by a Confederate soldier on the lines below Richmond, in the latter days of the war. He was an orderly for one of our Generals, and his pony had been taken by the Yankees. He said his name was Johnny Barrow, and that he lived near Newtown, Frederick County, Virginia, at a place called Cedarville; that his father had been killed, but his Grandfather was still living. His friends can hear of him by addressing this Office.

ONWARD .- The enterprising firm of Ranson & Duke, which has done its share in the rejuvenation of our community, have added to their Agricultural Warehouse, a Hardware Establishment, and invite the attention of purchasers to their full and complete assort-

Religious .- We learn from the Register that interesting meetings are in progress in the Presbyterian churches at Shepherdstown correct an error into which he has fallen and Elk Branch, conducted by Revs, Dr.

THE undersigned having purchased the right and entire and complete control of

LANGSTROTH'S PATENT BEE HIVES,
for the county of Jefferson, are prepared to furnish
said Hives, made in the best manner of seasoned
material with recent improvements, to all who may
want them. For their merit and great superiority
over any and all other hives, we refer to any and all
persons who have them in use, of whom there are
many in this vicinity. We can youch for over three
hundred pounds of pure virgin floney having been
taken from three of these flives in 1855, besides
leaving an abundant supply for the winter use of
the bees in the lower or breeding department.

As there are some persons in this county who have
these tlives in use who have no papers to show their
authority for using them, we hereby notify them
that we will place our claims for their use, with
damages, in the hands of a Lawyer for settlement
in the United States Court, if they disregard this
notice by not obtaining the proper authority from
us. We have paid our money for this right, and
do not intend that it shall be used by any one without authority and payment of the patent fee. There
is but one side to this question before the United
States Courts, where the costs are very heavy, independent of damages. As we are refluctant (though
determined) to take this course, we hope no one
will disregard this notice. This patent has been
extended for seven years from the 5th of October,
1866. We also caution all persons (not authorized)
against manufacturing said Hives in this county.

SOLUBLE PACIFIC GUANO.

PARMERS intending to fertilize their CORN CROPS will find this GUANO equally well adapted to that as to other CROPS. It can be applied either in the hill or broadcast. Applied in the hill it gives the crop a healthy and vigorous start.—A broadcast application sustains the crop better through the season, and is to be preferred except where the soil is good.
